Since 1974, Yupoong® (or "YP") has stood as pioneers and innovators in the realm of headwear. Consistently leading the way in comfort technology and performance innovation. Fueled by a commitment to perfection, we persistently embrace the opportunity to learn something new every day.

From the timeless Classic Adjustable, to the revolutionary Flexfit® and now a new age of sweat management with ActiveGuard™ Technology, and the pinnacle of headwear technology FLEXFIT NU®. Each represents Yupoong's unwavering dedication and commitment to not only the quality of today, but comfort technology for tomorrow.

To ensure a timeless and seamless continuation of the mindset that brought us today's quality, YP Academy actively trains all Yupoong employees in the fundamentals of headwear, maintaining our dedication and pursuit of comfort perfection.

 \mathbf{A}

FLEXFIT® EDUCATION

Dedicated to the commitment to quality and comfort perfection, YP Academy exists to provide insights and comprehensive services for any headwear need. Backed by five decades of alumni, Yupoong boasts expertise, experience, and, most importantly, a dedication to perfection rooted in a fundamental philosophy of excelsior. Flexfit® Education represents performance-driven comfort solutions, where style and comfort are never compromised.

With 50 years of dedicated expertise and a steadfast commitment to Performance Comfort, FLEXFIT® has consistently researched and developed technology to achieve maximum comfort. The revolutionary sweat management function of Cool & Dry, the innovative stain prevention of ActiveGuard™, and the lightweight, stretchable Flexfit® Mesh are just a few milestone developments introduced on our journey toward comfort perfection.

 $\mathsf{5}$

CORE TECHNOLOGY

FLEXFIT® TECH

Weaves stretchable fabric throughout the cap's crown for a secure and flexible fit.

FLEXFIT® MESH

A revolutionary stretchable mesh that provides ultimate ventilation and comfort.

ACTIVEGUARD™

Innovative design to enhance sweat absorption while rerouting stains towards the undervisor, as opposed to the traditional front panel. Ensuring a longer lasting refreshing experience.

PERMACURV®

Visor technology that maintains its proper shape and curve at all times.

FABRIC TECHNOLOGY

FLEXIBLE VISOR

Super lightweight and designed to be bent in any way and still keep its shape.

HYPERTECH

Conquers all of the elements: thermal regulation, Cool & Dry, anti-bacterial, and UV protection.

HYBRID TECH

Combining water repellency and Cool & Dry's moisture-wicking for ultimate comfort.

ULTRAFIBRE

Robust, lightweight, and wind/water resistant fibers with a natural shine that emanates strength.

FEATURE TECHNOLOGY

STAIN BLOCK TECH

This technology features a 3-Layer sweatband that effectively absorbs sweat and works to reduce any unwanted stains while keeping you fresh and dry.

PRO-FORMANCE®

Combines Cool & Dry properties with the premium look and feel of wool fabric.

COOL&DRY

Wicks perspiration away from the body, making sure to stay cool, dry, and refreshed.

ECOWASH™

Yupoong®'s proprietary patented technology enables wash cycles to use 98% less water, 70% less energy, and no environmentally harmful chemicals.

UNIPANEL™

Seamless front panel that provides a smooth, uninterrupted canvas for immediate wear or customization.

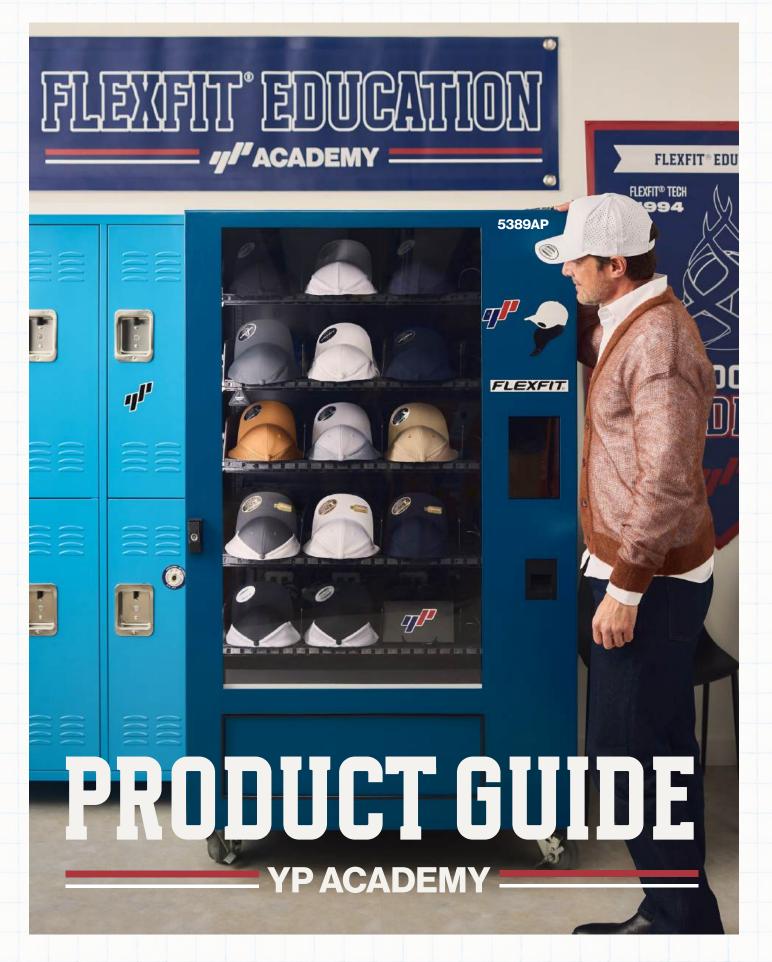

ECODRY

Environmentally friendly water repellency without the use of hazardous chemicals.

"| YUPOONG

YP CLASSICS®

PAGE 49-72

Representing versatile alumni of products worn around the world since 1974, YP Classics® range from trucker hats to beanies. The YP mark symbolizes meticulously crafted, rigorously tested, and globally beloved products. Driven by the pursuit of Comfort Perfection, YP Classics® remains a class ahead in quality, comfort, and design standards.

FLEXFIT.

PAGE 31-46

The Flexfit One and Only Original® stretchable fitted cap features Flexfit® Technology for enhanced comfort and confident style. With a polyurethane spandex-woven sweatband, it delivers a premium comfort experience and improved sizing options, made to fit more.

FLEXFIT 110

PAGE 19-26

Developed to further enhance the adjustable cap experience. Flexfit® Technology is combined with adjustable closures to provide greater customization and superior comfort, accommodating a wider range of sizes.

FLEXFIT 210

PAGE 47-48

A premium blend approach to performance comfort, the Flexfit 210® is crafted from durable, high-quality materials with expert craftsmanship. It reboots the silhouette of the team on-field baseball cap, with the enhanced comfort of built-in Flexfit® Technology.

FLEXFIT DELTA

PAGE 27-30

The epitome of lightweight premium performance, the Flexfit Delta® features an Ecodry water-repellent shell, a lighter weight achieved through stitchless paneling, and sweat and stain protection with Stain Block and ActiveGuard™ Technology.

FLEXFIT NU

PAGE 13-16

Patent-pending Tri-Layer technology enhances design application while creating a slimmer silhouette. The Flexfit NU® incorporates a 50% thinner front panel, featuring stitchless seams for a smoother and faster embellishment experience. With ActiveGuard™ technology, it offers enhanced sweat management and stain prevention, allowing users to sweat more but show less.

ANATOMY OFDESIGN

FLEXFIT NU®

6100NU 6110NU

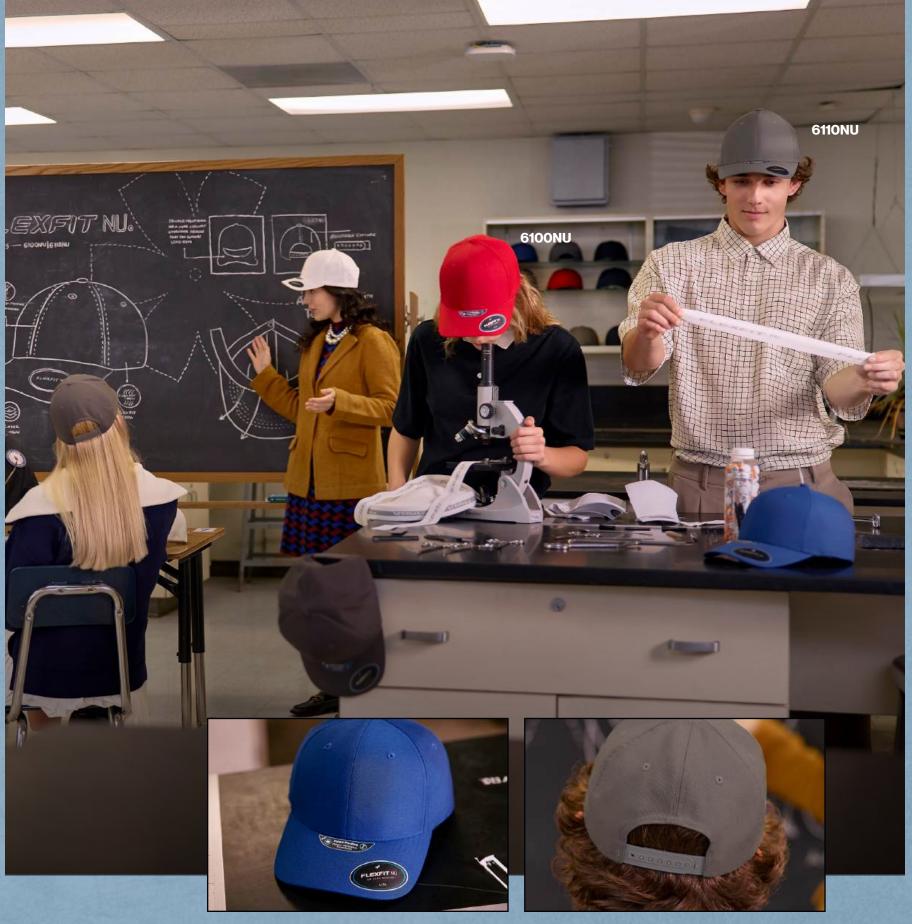

A craftsman's blend of technology and design, combining the science of ActiveGuardTM with the innovation of Tri-layer panels for enhanced comfort and branding. Fast-acting sweat absorption is rerouted to the undervisor, reducing stains from reaching the front layer for a longer-lasting, perfect look.

Embroidery speed has been successfully tested at over 1,000 RPMs. Flexfit NU® enhances productivity and design accuracy through Tri-Layer stitchless bonding technology. A seamless foundation for your design, Flexfit NU® represents a new generation of comfort and design technology.

HAT COMPONENTS

VISOR A fabric-covered round piece attached to the front of the cap.

Made to help shield the eyes from the sun, visors come in a wide range of shapes and curvatures to cater to a variety of headwear styles.

CROWN The distance from the bottom edge of the cap to the top of the head.

This helps determine the depth of the cap. A smaller number means the cap will sit higher on the head while a larger number means the cap will sit lower.

PANELS Triangular pieces of fabric that are stitched together.

These pieces come together to form the main rounded structure of the cap. Depending on the style, caps generally consist of 5 or 6 panels.

CLOSURE The back piece of the cap that determines fit and adjustability.

There is a wide range of closure types such as snapbacks, buckles, and plastic hooks made to give our customers the perfect fit.

PROFILE The slope of the cap's crown.

Low-profile caps tend to have crowns that are more angled while high profile caps have crowns that are more perpendicular to the visor.
